197/18 **Rights of Way in the Parish Obstructed by Maize:** The West Wilts Ramblers had raised concerns with Wiltshire Council over ROWs obstructed by maize and farmers not cutting a footpath through it to keep the ROW accessible. Wiltshire Council had said at the Highways and Streetscene meeting in April that they were in the process of developing a formal proforma to send to landowners and farmers reminding them about the planting of crops and their responsibility to keep ROW clear and accessible. If fields are ploughed then the ROW must be reinstated within 14 days and the ROW must be a minimum of 1m wide. The members noted that Shropshire Council had produced a really useful leaflet on the roles and responsibilities of landowners with regard to ROW. It was noted that the maize would soon be cut and thus these issues would be resolved for this year, but that they would most likely reoccur next year. Maize crops are usually planted in April, and so it was considered that letters could be written to landowners in March asking them to reinstate ROW following the planting of crops, and that this would be taking a proactive approach rather than a reactive one. However, it was noted that the West Wilts Ramblers have an expectation that Wiltshire Council will sent letters to farmers and landowners this year to remind them of their legal responsibilities and the impact of not complying with this. **Resolved : The Parish**

*Council query with Wiltshire Council when their proforma letter to landowners will be available, stating that they would like to send letters out to landowners in March 2019 prior to crop planting.*

- 198/18 **Works Undertaken on Parish Rights of Way by Volunteer:** The members noted that a volunteer had installed anti-slip tape on 80% of the stiles on ROW in the parish; 10% of the stiles could not be accessed. The volunteer anticipated that he would finish the rest of the stiles by the end of the month. The Parish Council expressed their thanks to this volunteer and for the feedback given about issues on all the ROWs.

Meeting closed at 9.10pm
